## Description:

Turning eighteen is an event that most teenagers find empowering. It represents a moment in life that tells the world “I’m an adult!” Mothers buzz around relishing in the bittersweetness of their children crossing over that imaginary line into independence while simultaneously smothering them with affection before they are forced to let them go. John Jacobs knew better than to expect such things on that seemingly beautiful May morning. Eighteen started off in a way that he can only think back on as a warning. A precursor of what’s to come. Having a mentally ill mother in the seventies, a gay brother and a father who refused to acknowledge either, made the idea of college that much more confusing. The fact that Rose was going was enough to push him out of the door and onto the road to Wimberley, TX. Only John was at a disadvantage, and wishful

thinking only works when your life hasn't been based on a web of lies woven by the two people in the world you should trust most.

This book blew me away. Not only were the characters incredibly developed in a way that made you feel like you were watching their lives unfold in real time, but the twists and turns completely had me. I thought I knew what was going to happen, but boy was I wrong (repeatedly). I read this book multiple times and would read it again in a heartbeat. *We All Fall Down* trumps most of the "suspense" books I read off the 2017 New York Times Best Sellers list and deserves a spot at the top. If you liked *Girl on the Train*, you'll love this book. I can't wait to see what Aimee comes up with for her next book.
